Welcome Associations Education Services Experience

Welcome

In today's fast-paced world, few people have the time or resources to dedicate to managing their investments—whether it involves researching bond calls, reviewing company earnings projections or tracking mutual fund performance. As your Financial Advisor, I will alert you to new opportunities and advise you on changing market conditions that may affect your investments. It's all part of my long-term commitment to my clients.

Bulletin Board

- We consistently rank among the leaders in distribution and trading of tax-exempt, fixed-income securities. The strength of the firm's tax-exempt platform is reflected in our current number one ranking in lead-managed* municipal bond underwritings. See Municipal Bonds under Key Links on the left for details.

- See Special Reports for the November On the Markets. November's lineup includes "Let's Get Real" Real yields, which are yields adjusted for inflation, are now very good for high-grade corporate bonds and high yield bonds. In addition, the real earnings yield for the S&P 500 is quite high, too. These attractive real yields give investors an opportunity to get well ahead of inflation argue Chief Investment Officer Jeff Applegate, Chief Investment Strategist David M. Darst and Global Investment Strategist Charles Reinhard in this month's cover story.
